I have included the PowerPoint presentation that I used to produce my Internet Marketer's Mind Movie, which you can view here:

<http://e1kad.com/mm>

Of course, as you'll read in the report, I added lots of images to my movie before producing it with animoto. I do not have a license to transfer the images to you, so you'll have to find your own if you want to use my slides as a basis for your own mind movie.

If you do produce a mind movie of your own, all you'll need to do is change the text on my slides to what you want to say to yourself, rearrange them, add to them, delete some, add your own images wherever you want, etc.

Have fun, and I hope this is helpful to you. I should also mention, this isn't just about making mind movies. Though that was the example I used, this technique can be used to produce very cool movies of many types, including wedding videos, children's videos, sports videos, and lots more, only limited by your imagination. You could make a solid income by doing this for others that don't have the expertise, tools, or creativity that you have.

By the way, if you'd like to obtain private label rights to this package, it's available here:

<http://www.earn1kaday.net/MakingMovies>

With private label rights, you'll receive the source document (.doc format which can be modified with Microsoft Word or Open Office). You'll have rights to make any changes you like, including but not limited to changing the links to Earn1KaDay.net to your own affiliate link, and the links to Animoto to your affiliate link (they pay \$12 for every purchase of the all access pass, and \$50 for purchase of a commercial license).

Enjoy and prosper.
